"Extra-Fashioned."

Few People Realize How Much These Two Words Imply of Comfort and Convenience.

They refer to the manner in which the LEWIS KNITTING CO.'S UNDERWEAR is shaped to fit across the chest, around the thighs, legs, arms, hips and neck,—and mean—more fullness where the form requires it WITHOUT STRETCHING THE GARMENT.

Now that you understand this—think how great a convenience it must be, how really gratifying not to be obliged to "last," as they say of shoes, your flannels on your own body that they shall fit. Because they are TIGHT is no reason for believing that they FIT you, they do not any more than they would if they were loose. When your flannels are tightly drawn by stretching as they are tugged and pulled on—the fibre is drawn—the fabric is thinned, and the result is that there is constant tension and wear, to say nothing of the discomfort of tightness.

THE LEWIS KNITTING CO.'S GARMENTS are made in union suits, shirts, drawers, pants and vests, of finest materials, are comfortable, easily adjusted and pleasant to the skin. They are not expensive, and when the wear and tear (particularly the tear) on the ordinary flannels is considered they are economical. They are **"Extra-Fashioned"** to fit naturally, tailor-trimmed and the Original Derby Ribbed Dress Reform Underwear, and the only underwear containing Lewis Tension Yoke (patented), without which ribbed underwear is so unsatisfactory.

"NO WORSE"

Is What They Say of Blaine's Condition Today.

A Celebrated Specialist on Bright's Disease Has Been Summoned to Washington.

WASHINGTON, Dec. 19.—At 8.30 this morning a reporter, who called at the Blaine residence, was told that the ex-secretary was awake and that his condition was no worse than yesterday afternoon. Mr. Blaine's physician had not yet visited him and owing to the early hour, no one but the servants were accessible. The statement given out that the patient was no worse seems to preclude the possibility that any marked improvement had taken place.

NEW YORK, Dec. 19.—Dr. Alfred D. Loomis, the leading specialist in New York city, and probably in America, on Bright's disease, was last night, summoned to Washington to attend ex-Secretary Blaine. Dr. Loomis has never attended Mr. Blaine before, in fact he has never seen him. The dispatch which summoned Dr. Loomis was received by him at 9 o'clock last evening. It was as follows:

WASHINGTON, Dec. 19.

Dr. Alfred D. Loomis, New York City.

Can you take the night train and come here and see Mr. Blaine?

[Signed] BLAINE.

Dr. Loomis left on the midnight train for the capital.

WASHINGTON, Dec. 19.—A reporter visited Mr. Blaine's house at 9:30 o'clock this morning and was informed by the attendant, who answered the bell that Mr. Blaine "is a little better this morning and had a fairly good night's rest." A great many officials stopped at the house on their way to their offices this morning and received the same information in regard to Mr. Blaine's condition. Secretary John W. Foster was one of the earliest callers and Senator Paddock was not far behind him. Each of them subsequently said that he had been told that there had been a slight improvement in Mr. Blaine's condition since yesterday morning.

Mr. Blaine is better this morning and, although the doctors do not hold out the hope of permanent recovery, the family feel that the crisis of yesterday has been passed and that, perhaps, the loving husband and father may be spared. It is stated that he sat up for a short time this morning and talked with the members of the family in a very cheerful strain of mind. An old friend of the family called and was surprised to be received by Miss Hattie Blaine in a manner that indicated more than words the feeling of contentment and happiness that possessed her. She said that her father had a very comfortable night, and awoke this morning refreshed and bright. He took some nourishment and was decidedly better than he had been for a few days past. The sinking spell of yesterday has lost its effect, and the reaction had apparently left the invalid stronger than he was before. Many callers came to inquire after the condition of Mr. Blaine and leave words of sympathy with the members of the family. Mrs. Emmons Blaine arrived last evening and the family circle is now complete. Dr. Alfred L. Loomis of New York, arrived this morning and went at once to the Blaine mansion where he remained with Drs. Johnston and Hyatt for more than an hour. At the close of the consultation the doctors gave out the following statement: "Although Mr. Blaine's condition during the last week has given serious anxiety, yet at the present moment he is decidedly better and in no immediate danger. It is impossible to predict what changes may occur, but his condition this morning gives a more hopeful feeling as to the progress of his disease. [Signed] Alfred L. Loomis, M. D.; Frank Hyatt, M. D.; W. W. Johnstone, M. D." This bulletin was issued at 11 o'clock.

CHICAGO HOTELS

Will Not Raise Rates During the World's Fair.

CHICAGO, Dec. 19.—In regard to a report current yesterday that the prominent Chicago hotels had pooled to raise and maintain rates during the world's fair, B. Irving Pearce, of the Sherman, said: "There is nothing in the report. I am among the hotel men more than any other proprietor in the city and I have not seen three proprietors or managers together in this city for more than a year. For the Sherman house I will say that our rates will be just what they are today, except for the fact that we will place as many people in each room as we reasonably can." Will Shaffer, chief clerk at the Victoria, said that he had heard of no pool and that he did not believe there is any. The management of the Auditorium, Leland and Wellington hotels said they had not heard of any organization among hotel men to stiffen the rates.

CLEVELAND'S CABINET.

He is Doing Some Thinking About the Matter.

NEW YORK, Dec. 19.—Mr. Cleveland entertained two members of his old cabinet at his house Saturday afternoon and evening. The visitors were Don M. Dickinson and Senator William S. Villas, of Wisconsin. They said yesterday that they had no hesitation in stating that they had been in consultation with Mr. Cleveland on matters relating to the interests of the northwest. The conference lasted several hours. Among the matters under discussion was the question of cabinet appointments. It was said that Mr. Villas and Mr. Dickinson had been asked for their opinions as to the cabinet and other matters, because Mr. Cleveland had learned from experience with them to rely upon their judgment. No one had any of the details of the conference to make public yesterday and if any determination was reached by Mr. Cleveland as to any of the questions under discussion Mr. Villas and Mr. Dickinson did not disclose it. Both left the city yesterday evening.

GHASTLY WORK.

The Remains of a Man Chopped to Pieces and Boxed Up.

"Is It Murder or the Work of Medical Students?" is a Question the Police are Discussing.

ST. LOUIS, Dec. 19.—The work of a St. Louis murderer or a dissecting student was the terrible revelation Saturday morning in the baggage depot at Quincy, Ill. The remains of a white man were found chopped to pieces and jammed in an old soap box. This receptacle had been shipped from the union depot in St. Louis as baggage. It was only about three feet in length and about one foot in depth. When it reached Quincy, Baggageman W. E. Kendall detected a foul odor coming from the box, but thought it contained some game that had spoiled. No one called for the box and by Sunday morning the stench was so strong that few people dared venture near it. Finally Mr. Kendall opened the box and made the discovery as above. The police were notified and took charge of the remains. At the union depot here it is stated that two young men dressed in the heighth of style checked this box to Quincy and a similar one to a small town on the Missouri Pacific railroad. The railroad people think it is the work of medical students who wanted to take their subjects home. Up to last night the body at Quincy had not been called for and the police think it hardly probable that a student would take such ghastly objects home with him and a possible murder is thought to be at the bottom of it.

BISHOP WIGGER SURRENDERS.

Father Corrigan Apologizes and the Trial is Declared Off.

HOBOKEN, N. J., Dec. 19.—The controversy between Bishop Wigger, of Newark, and Father Corrigan, of Hoboken, N. J., was rather abruptly terminated Saturday night. Bishop Wigger surrenders unconditionally. The trial is therefore stopped and the charge withdrawn. Bishop Wigger appointed a committee of priests to visit Father Corrigan and endeavor to induce him to apoligize. To this proposal Father Corrigan made the following reply:

RT. REV. DEAR BISHOP:—Having received kindly suggestions from mutual friends who have consulted you and extended to me advice that I highly appreciate, I am glad to yield whatever may be justly expected of me to put an end to this controversy. Nothing would give me more annoyance than to have been guilty of violating the respect due to you and also to the Most Rev. Metropolitan Archbishop Corrigan, and wherever I have unintentionally gone beyond the proper bounds I hereby express my regret for it and pray both of you to overlook it. I believe that you have tried to be just in the administration of your diocese, and I am satisfied that whatever mistakes you may have made did not proceed from malice. As regards the future, you need have no apprehension that I have any intention of attacking yourself or your government in the papers. Your servant in Christ,

PATRICK CORRIGAN.

Bishop Wigger acknowledges the receipt of Father Corrigan's letter in the following communication:

SETON HALL COLLEGE,
SOUTH ORANGE, Dec 17.

DEAR CORRIGAN—I hereby accept cheerfully the apology that you have written, and which Very Rev. Dean Flynn and Father Cody have just brought to me. I hereby discontinue the trial and wish you every blessing.

Yours very sincerely,
WILLIAM WIGGER,
Bishop of Newark.

JOE GODDARD

Wants to Fight Corbett, the Champion of the World.

CHICAGO, Dec. 19.—Pugilist Joe Goddard wants to fight Jim Corbett for $5,000 or $10,000 a side. He has put up $2,500 with George Silor, sporting editor of a Chicago paper and if Corbett does not accept the challenge it is open to Charley Mitchell. Goddard is willing to have the fight take place before any club in America. His recent encounter, which Goddard won with ease, has caused his friends to believe that he can make a strong fight with the world's champion. Corbett was notified last night by telegraph of Goddard's challenge, but no response was received.

A RAPID METER,

Which Left a Streak of Fireworks in Its Wake.

ALBANY, Ore., Dec. 19.—About 5 o'clock Saturday Freid Reis saw a bright meteor approaching from the southeast. It was traveling very rapidly, and, with a rushing sound, fell into the street, followed by a wake of bright sparks. Reis hastened to the spot where it stauck the earth and found a rock about fourteen inches in circumference. It was still very hot and charred the board upon which it was placed. The rock has the appearance of a volcanic production.

At St. Peter's Catholic school yesterday the temporary organization of the new male chorus was effected. A committee of five was appointed to frame a constitution and bylaws. The first meeting will be held on Wednesday evening, at which time a permanent organization will be made.

GOT ON A SPREE.

A Quadruple Tragedy at Hog Run, Ky.

Two Men Killed and Two Others Cut to Pieces and Will Die.

CINCINNATI, Dec. 19.—In a fight which took place early Saturday morning between a gang of laborers at Hog Run, near Walton, Ky., on the Louisville and Nashville railroad, two men were killed and two more are dying of their injuries. The trouble originated with four colored men, Wm. Jackson, Wm. Grimes, Dudley Warner and an unknown, who answered to the nickname of "Grimy." Several days ago a pay car passed the place and all of them were paid their wages. They celebrated the event by getting on a spree which, lasting for three days, culminated in the awful tragedy. On Friday night, "Grimy," who was a comparative stranger, accused Jackson of having stolen some money from him. Jackson denied the charge and called "Grimy" a thief. The two men began to fight, and, drawing a razor, Jackson cut "Grimy" across the face. The other two men took a hand and for an hour clubs, knives and stones were used, the noise of the conflict attracting other laborers who joined in the battle. Distress signals were sent to the station but no one in that village cared to undertake the quelling of the murderous mob which continued to riot until early morning. Then an ominious silence took the place of oaths, yells and blows. Early Saturday morning a posse of workmen at the tunnel started in the direction of the creek where the mob had last been heard. After a tramp of nearly a mile toward the south they came upon a spectacle that chilled the blood in their veins. Lying in a ravine were the bodies of four men. Jackson was dead, Warner died a few minutes after being found. The other two men are being cared for but they are cut to pieces and their lives are despaired of. The quadruple tragedy is the climax of a series of crimes in that section of the county which is about thirty miles from this city.

ELEPHANT'S ESCAPADE.

Escapes From a Circus and Has a Time in a Farmer's Barn Yard.

CRAWFORDSVILLE, Ind., Dec. 20.—A few nights ago an elephant was discovered in the barnyard of William Fordyce, near this city. The next morning the place was found to have been wrecked, fences broken, the corn cribs gutted and everything was in a devastated condition. During the night the elephant had enjoyed himself and having grown tired, left the place, taking several panels of wire fences with him. He was traced to a swamp near by, but no one cared to disturb him. That night he returned to Fordyce's place and slept in a straw stack. The presence of an elephant loose alarmed the neighborhood, and watchers were detailed to keep track of the animal in order to alarm the farmers should he attack any farmhouse. Friday night Manager Gray, of the Great American circus, with two men, arrived here from Jeffersonville, and with many town people went out to Fordyce's, where Keeper Newman recognized him as "Sultan," one of the largest and fiercest of his herd. The gang of showmen attacked him with pitchforks and prods and finally forced him into the barn. The building was nearly wrecked and the brute's howls could be heard a distance of four miles. He was finally captured. Sultan escaped from the circus last Tuesday during the transfer of Stock at Waynestown, some distance from the Fordyce place.

LAWYER IN JAIL

As the Result of a Drunken Debauch—Shot by Burglars.

CHICAGO, Dec. 19.—A. A. Haskins, one of the most prominent lawyers of Des Moines, Iowa, and son of one of the wealthiest and most prominent men of that state, was locked up at the Harrison street station last night on charges of assault with intent to kill, drunkenness and disorderly conduct. The charge is made by a woman named Gordon, who says he went to her room and, pointing a revolver at her, demanded that she give him his pocket book, of which he said she had previously robbed him. Attorney Haskins was much chagrined to spend five hours in the lockup, saying it is an erroneous identification. Although the woman's purse was found on him, Harkins asserts that the real thief dropped it in his pocket as he brushed past him in the crowd in order to avoid arrest himself.

Frederick J. Austin, of 3514 Prairie avenue, was mortally wounded at 3 o'clock this morning by two burglars. Mr. Austin was entering his house at that hour when he noticed the two men prowling around one of the side windows. He drew his revolver and asked the men what they wanted. One of them fired a shot which missed Mr. Austin, and the latter returned the fire. Several shots were exchanged, one of which struck Mr. Austin in the stomach. He fell to the sidewalk and while lying prostrate he emptied his revolver at the men. It is thought that one of them was wounded, for a trail of blood in the snow marked the course by which they escaped. Mr. Austin is the cashier at A. G. Spaldings, 108 Madison street.

ENGINEERS MEET.

The Affair Was Purely of a Social Nature.

Fort Wayne Delegates Return and Report a Most Pleasant Occasion.

Those locomotive engineers who went to Jackson, Mich., yesterday to meet Grand Chief Arthur and other members of the brotherhood, have returned to the city and all report the meeting one of the most pleasant social affairs they ever had the pleasure of participating in. A rumor was current that the engineers had a grievance to lay before the chief, and the meeting was for that purpose. This was not the case, however. The meeting was a purely social affair and no grievances of any kind came before it. There were over 500 engineers present.

The meeting was of one session, being called to order at 1 o'clock and lasting five hours. Chief Arthur spoke an hour and a half. Of the condition of the order he said: "Our order has never been in a more flourishing condition. Since April 1, the close of the fiscal year, sixteen new divisions have been formed. During my nineteen years as grand chief I have never seen a more prosperous state of affairs than at present. Grievances have, of course, arisen at various times, but these have all been amicably adjusted, and all of the 35,000 of us are now happy."

Moynihan and adopted unanimously: "Resolved, That the thanks of branch 103 be tendered to the retiring president, Hon. P. S. O'Rourke, for the intelligent interest he has taken and the zeal he has manifested in the affairs of branch 103 in particular, and the Catholic Knights of America in general. That to the sinking fund, conceived by him and created at his suggestion, as well as to his counsel and his manly and courageous exposure of recreant supreme officers, the order in this country today owes its existance and high standing."

The following officers were elected:

Secretary and Treasurer—Carl Weber.

The police have not succeeded in getting on the track of the marauders.

NEW CHARTER.

Important Meeting of the Committee This Morning.

The Offices of Street Commissioner and City Marshal to be Abolished.

The special committee appointed at the meeting Friday evening in the superior court room to prepare a rough draft of the main features of the new city charter, met this morning in the mayor's office and after careful work and much thought, decided on the improvements needed in our present charter to make it more suitable to the demands and government of our city. It was decided by the committee to recommend the appointing of a board of public works and a board of public safety, each board to be non-partisan and to be selected by the mayor. The board of public works is to have entire charge of all public works and improvements in the city; to be composed of three competent men, and to receive each a salary of not less than one thousand dollars nor more than fifteen hundred dollars per year.

The board of safety will have charge of the fire department, police and health officers of the city and will receive a salary of about three hundred dollars per year.

It was also recommended by the committee to reduce the city council to one member from each ward, and to elect five members at large. At present we have two members from each ward.

The offices of city marshal and street commissioner and deputy will be abolished.

Many other matters of great importance to the welfare of our city was recommended and will be presented at a meeting of our business men in the superior court room next Wednesday evening, at 7:30 o'clock. Mayor Zollinger requests us to invite all persons interested in our city's prosperity and happiness to be present. The special committee will make their report at that meeting.

WILL it be a white Christmas?

HUNT up your Christmas presents.

FORT WAYNE is putting on her holiday attire.

THE old year has less than two weeks to live. Begin to balance your accounts.

GOVERNOR-ELECT CLAUDE MATTHEWS is being talked of as a presidential candidate four years hence.

THE scramble at Indianapolis for the appointive and such offices as are within the gift of the legislature has already begun.

THE near approach of Christmas is seen in the magnificent display of goods in the show windows of many of our business men.

THE day dawned with a fall of "the beautiful." Winter is not winter without snow. It adds many charms to the joyousness of the holiday season.

HERBERT H. HUNT, late editor of the South Bend Post, has taken an editorial position on the Indianapolis Sun. He is a fluent writer and a talented young man.

AT LAST Fort Wayne has a press club and one that will live. Newspaper men have rights and it will be the purpose of this organization to see that they are respected.

THE nation watches for the latest news from the sick room of Hon. James G. Blaine. The Plumed Knight is one of the greatest statesmen of the country and holds an affectionate place in the hearts of his countrymen.

JAMES B. PATTEN, warden of the state prison south, has filed with the governor his annual report of the prison, together with the report of the board of directors and other officers. The report stated that the prison for the year has been self-sustaining.

THE democrats in many cities and towns are expressing their preference for postmaster by a popular election held among members of their party. Why wouldn't that be a good way to settle the question who the next postmaster of Fort Wayne should be?

REV. A. B. LEONARD, of New York city, secretary of the Missionary society of the M. E. churches, delivered a grand address on the subject of "Missions" at the Wayne street M. E. church yesterday morning. He also spoke at the Berry street church in the evening. He is an able pulpit orator.

"THE Power and Influence of the Press," was the subject of a sermon delivered last evening at the Grace Reformed church by Rev. A. K. Zartman. It was an able and interesting discourse and was attentively listened to by the audience present, abounding in rich thought and information. He spoke of the press as one of the most powerful influences for good or evil of the modern centuries. No other medium so moulds public opinion or so rapidly conveys information as does the newspaper. It is read by almost every man, woman or child and is exerting its influence in all parts of the civilized globe seven days in the week and 365 days in the year. For this reason it should be pure in sentiment, always maintaining the right and seeking to elevate public morals. Thus conducted, its power for good is immeasurable.

THE second Indiana state conference of charities and corrections will convene at Indianapolis January 16, 1893, at 10:30 a. m. At this conference many excellent papers will be read by practical and well informed men. County commissioners, superintendents of county asylums, matrons and directors of orphans' homes and township trustees are especially invited to be present.

OUR people should remember the poor this year and each one should look after the needy in their own neighborhood. The Daily News of our city deserves great credit for its kind work in behalf of the poor children of Fort Wayne, and their Santa Claus fund should be largely increased. Let us not live in this world alone for ourselves, but in the midst of its duties try to make the lives of others happy.

The Apportionment Acts.

The Indiana supreme court has handed down an opinion in the suit to test the constitutionality of the legislative apportionment acts of 1885 and 1891, reversing the decision of the lower court, and though holding the acts unconstitutional, refusing to apply the remedy asked for in the complaint. The opinion of a majority of the court decides that the courts have power to adjudge an apportionment act void if it violates the provisions of the constitution.

This conclusion disposes of the point made by the counsel for the elective officers and the state that the courts have no jurisdiction on the subject. It is also decided in the majority of opinion that the courts have a right to decide upon the constitutionality of the acts of 1879 and 1891, but that the question of the validity of the act of 1885 is not in the case. It is further decided that the legislators elected under the act of 1891 are officers de facto, and their acts, so far as concerns the public, valid. The court reverses the judgment of the lower court because the act of 1879, being unconstitutional, Powell, the relator, had no right to a writ of mandamus to compel its enforcement.

A FUNNY incident of an evening reception given by Vice President and Mrs. Morton, which, so far, has not crept into print, relates to the wife of a member of congress upon whom the honors of senatorship had been conferred. Her progress through the crowded rooms with her husband had been the signal for such continuous congratulations and extensive handshaking that by the time the supper-room was reached the good lady sank down exhausted on a sofa on which several friends were seated. A moment later she became conscious of a black-coated man bending politely toward her, and, supposing more congratulations were in order, at once rose and extending her hand suddenly awoke to the fact that she was warmly grasping the hand of an astonished waiter who had approached to inquire what he could serve her from the supper table.

DENTISTS say that the greatest difficulty they meet with in their work is the matching of false teeth with the natural teeth of their customers. The tooth factories supply dentists with rings upon which are strung thin metal bars, each carrying a tooth at its extremity. There are twenty-five of these sample teeth that run all the way from nearly white to a shade that is almost olive. Some one of the twenty-five usually matches the patient's teeth, and, at any rate, enables the dentist to match the teeth by application at the factory.

NEW JERSEY comes to the front with a strawberry plant which bears fruit all the year, and Arkansas with a three-year-old negro boy, who killed a rattlesnake just twice as old as himself, inside of which were found a water-moccasin over four feet long, a black snake of the same length, two dead toads and one live one, besides a large bullfrog.

AN inventor has made an application for a patent for a new calculating machine which is reported to be a marvelous affair of its kind. It is simply turned by a handle, and it is said to evolve multiplications with a product of twenty figures in the third of a minute.

TO A man who, as he imagined, had saved his life in a railway accident, John Hauck, a wealthy Cincinnati brewer, gave $5,000. This was followed by several other similar gifts, until the family, finding his mind was giving way, had him placed under restraint.

UPON one wall of a restaurant in New York is the following inscription: "Happy is that people whose God is the Lord." Directly opposite is another inscription warning patrons of the place to keep a sharp eye on their umbrellas, overcoats and walking sticks.

ONE of the handsomest notes issued by the United States treasury is the new five hundred dollar note recently turned out. Gen. W. T. Sherman's portrait graces the face of it.

SIX brothers of the Frost family at Kansas City own the following lot of odd names: Jack Frost, Winter Frost, White Frost, Cold Frost; Early Frost and Snow Frost.

FOLLOWING is the verdict of a Pennsylvania jury of inquest in a case of supposed arson: "We, the jury, find that the thing was done. Who did it or how it was done of course we don't know, but we do, of course, know that it was done."

A TEN-POUND cannon ball was recently dug up at Lakeside, Ind. It has been identified as a relic of the times when Mad Anthony Wayne was in command thereabouts.

FROM recent estimates it is learned that twenty million dollars' worth of honey and beeswax was produced in the United States during the past year.

RECENT reports from Maryland convey the intelligence that colored schoolteachers are in such great demand that there are not enough of them to supply the openings.

J. Turner, who stands very high as to efficiency with the Pennsylvania people."

Napoleon's Chaise.

One of the attractions at an industrial exhibition recently held in Metz was the chaise in which Napoleon traveled from Moscow to Paris in 1812. It was bequeathed to Baron de Hunolstein, who sold it to a man in Metz upon the consideration that it should never be considered as an article of commerce. The purchaser, in fact, bound himself in writing to destroy the vehicle if he should not wish to preserve it. It attracted great attention at Metz and its owner received several very advantageous offers from persons who wished to possess it. One of these he was on the point of accepting when the heirs of Baron Hunolstein interfered and insisted that the contract must be lived up to. The owner was so angered at losing this chance to make a nice sum of money that he threatened to fulfill the contract, not by preserving the historic chaise, but by chopping it into kindling-wood.

Revolutions Barred.

For the use of Turkish schools special editions of modern history textbooks have to be prepared, from which every mention of revolutions have been excised. It is also forbidden to teach anything about the reign of the Sultan until thirty-three years have elapsed since his death.

Recent astronomical calculations have caused the "star-gazers" to announce that the surface of the moon is about as great as that of Africa and Australia combined, or about equal to the area of North and South America, without the islands.

A Round of Pleasure in the Courts.

It is claimed that most people go to law for the mental satisfaction of winning. To them our Canadian judiciary system must be most gratifying. They can go from the County court to a Superior Court Judge, thence to the full court, and on to the Court of Appeal; then on to the Supreme court, and if they have any money remaining they may go to the Privy Council of England. The litigant who does not secure one or two favorable decisions along the road must have a hopeless case.

FEEBLE-MINDED CHILDREN.

Annual Showing of the State's Institution at Fort Wayne.

[Indianapolis News.]

Superintendent John G. Blake, today filed with the governor the fourteenth annual report of the Indiana School for Feeble Minded Youth. It includes the report of the trustees and of all the officers. Collectively they make a showing of unusual success in the management and education of the state's wards in their charge. The industrial features of the institution have become prominent and the achievements in this direction are particularly emphasized. The trustees commend Superintendent Blake and speak of him as being "especially fitted for this work, both in the care and control of the children and the financial management of the institution." Some of the results of the year are summarized as follows: A model industrial building for boys and girls; a school house for boys; addition to the boys' general dining room; a lavatory, with clothes-room and attendants' room attached; dining-room, with kitchen and scullery attached; a new system of hot water supply; large hot water heater and new 125-horse power boiler for power for electric light plant. The foregoing represents results accomplished with an appropriation of $33,000 made by the last legislature. The fever hospital has also been completed. An increased cost for fuel of more than 200 per cent. results from the expiration of the $3,000 per annum contract and from the enforced adoption of the meter system, this makes necessary an increased appropriation for maintenance. All the school grades show marked improvement, and the addition of wood carving, crayon work, painting and china decoration have developed an interest in pupils not ordinarily supposed to be capable of showing interest in either industry or art.

The completion of the industrial building marks an era in the state's efforts to educate the feeble minded. The industrial features include shoemaking, tailoring, dressmaking, comfort making, repairing, carpenter work, upholstery and mattressmaking, woodworking, painting, plumbing and steamfitting, besides general household work and farming. The superintendent has deposited $608 12, representing the proceeds of sales from the various industrial departments.

A library of more than eight hundred volumes has been established, besides magazines, without expense to the state. The reading matter was given by friends throughout the state, and the library was fitted up from the proceeds of an entertainment given by the children. The institution combines the features of both a school and an asylum. This dual feature necessarily adds to the number of people employed and increases the cost of maintenance.

The superintendent makes recommendations which must be heeded, he says, or else by its refusal the state will proclaim that the school for feeble minded youth is closed to further admission to helpless children. The total appropriation asked for is $290,000; of this amount $110,000 is necessary for a custodial building in which to care for that class of children which the law says must be separated from the brighter grades; 300 patients can be accommodated in this building; $12,000 for a boys' hospital; $20,000 for a girls' school house, similar to the one now occupied by the boys; $50,000 for a large farm on which can be colonized forty or fifty of the larger boys and their labor utilized in this as in no other way; the remainder of the appropriation to be used for a boiler house and heating apparatus. With this appropriation expended as indicated the institution can care for at least 400 additional inmates. There are now 428 inmates. There are over 5,000 in the state whose condition is contemplated in the feeble minded law.

Is one of the prime causes of headache in the winter. Persons accustomed to the pure fresh air during the pleasant months are subject to this terrible annoyance at this time of the year. A boon is offered in KRAUSE'S HEADACHE CAPSULES, which is guaranteed to cure any kind of a headache no matter what the cause. Headache caused by overindulgence in food or drink late at night, can be prevented by taking one CAPSULE before retiring and one in the morning. For sale by Gross & Pellens.

Lincoln Tea cleanses the system effectively, dispells colds, headaches, and cures habitual constipation.

Stop-Over Privileges Discontinued.

To avoid manipulation and illegitimate use of its tickets, the Wabash Railroad company has found it necessary to discontinue the granting of stop-over privileges on all kinds and classes of tickets, and after January 1st, 1893, passengers will be obliged to purchase tickets from point to point. The new arrangement, however, which will be fully explained by any of the company's agents, will be found to be equally as convenient to the traveling public as the old, while the company will be enabled to protect itself from imposition. 17-13t

In a recent letter to the manufacturers, Mr. A. W. Baldridge, Millersville, Ill., says: "Chamberlain's Cough Remedy gives the best satisfaction of any cough medicine I handle, and as a seller, leads all other preparations in this market. I recommend it because it is the best medicine I ever handled for coughs, colds and croup." For sale by druggists.

NOT SO VERY TOUGH.

Baseball Salaries to be Still Above the Average.

The Pittsburg club was the very first of the twelve league clubs to get a salary measure for next season. It signed all of its "A 1" men of this year's team at a regular salary of $2,400 for next year. This is a cut of from 30 to 40 per cent. The second and third class players will receive from $1,600 to $2,000. These figures may be taken as about the regular rates to be paid next year. It is pretty hard for a star who drew $4,000 or $5,000 this year to bring himself down to $2,400 next year. Yet there will be about 500,000 men in the United States next year struggling for 50,000 Federal appointments, averaging salaries much less in size and covering twice the amount of time.

Bloody Fight at Cleveland.

At Cleveland, Ohio, the other night Frank Ficoldo, an Italian peanut vender, while intoxicated attacked two police officers, Hill and Dempsey, with a large dirk knife. Dempsey was badly cut about the head and body, and Hill sustained a deep gash in the shoulder and left arm. Hill pulled out his revolver and shot the Italian twice. The second shot struck in the center of the back, coming out through his breast, killing him. The officers were not dangerously wounded.

The Plain Truth

Is good enough for Hood's Sarsaparilla—there is no need of embellishment or sensationalism. Simply what Hood's Sarsaparilla does, that tells the story of its merit. If you have never realized its benefits a single bottle will convince you it is a good medicine.

The highest praise has been won by **Hood's Pills** for their easy, yet efficient action. Sold by all druggists. Price 25 cents.

THE character and career of Harry Vane Millbank are being severely commented upon. In the general ardor to say something unpleasant about him, Mr. Millbank is not even receiving the credit he deserves for having died.

Mrs. Mary E. O'Fallon

of Piqua, O., says the Physicians are Astonished, and look at her like one

Raised from the Dead

Long and Terrible Illness from Blood Poisoning

Completely Cured by Hood's Sarsaparilla.

Mrs. Mary E. O'Fallon, a very intelligent lady of Piqua, Ohio, was poisoned while assisting physicians at an autopsy 5 years ago, and soon **terrible ulcers** broke out on her head, arms, tongue and throat. Her hair all came out. She weighed but 78 lbs., and saw no prospect of help. At last she began to take Hood's Sarsaparilla and at once improved; could soon get out of bed and walk. She says: "I became perfectly cured by

Hood's Sarsaparilla

and am now a well woman. I weigh 128 lbs., eat well and do the work for a large family. My case seems a wonderful recovery and physicians look at me in astonishment, as almost **like one raised from the dead.**"

HOOD'S PILLS should be in every family medicine chest. Once used, always preferred.

Beauty . . .

And . . .

Mme. M. Yale's

La Freckla

Mme. M. Yale, the celebrated beauty and complexion specialist, said in one of her famous lectures on "Beauty and the Complexion": Young ladies, remember a pretty face will win for you love, and love will win for you a husband. Married ladies, remember with the decline of youth and beauty your husband's love will grow cold. Youth and beauty is woman's power. Be on your guard against wrinkles, old age and ugliness; they have broken up many happy homes.

FRECKLES.

LA FRECKLA is the name of Madame Yale's famous discovery. It is the only Freckle cure in existence—3 days is sufficient in most cases to effect a cure, and one week where the case is of long standing. There are no Freckles on record that La Freckla will not cure—guaranteed in every instance. For Tan and Sunburn it is instantaneous, removing it instantly upon the first application. The most perfect complexion in the world was obtained by the use of La Freckla—$1 per bottle. Sold at all druggists', shipped from Chicago in plain wrappers. Mme. Yale's Famous Book, "Beauty and the Complexion," will be sent free to any address upon receipt of 6 cents postage. Ladies may consult Mme. Yale free of charge by mail or at the Temple of Beauty in person. All correspondence strictly confidential.

Used in Millions of Homes—40 Years the Standard

One Way

to fill a barrel with water, is to use a sieve. It's a poor way, though. You can do it—but it takes time, patience, care and much work.

So you can wash clothes with soap and a washboard—but it isn't the best way. It's slow work, hard work, costly work. It wears out the things you're trying to get clean.

The best and easiest way is to use **Pearline.** That does the washing while you're doing something else—does it without any of the clumsy rubbing that takes so much time and makes so much wear and tear. Try it—saves you money as well as work.

Send it Back Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—*send it back.* 329 JAMES PYLE, New York.

RAILWAYS AND SHOPS.

A Few of the "Old Timers" in the Pittsburg Shops.

A Sensational Story Concerning Panhandle Conductors—Local and Personal Matters.

Probably there is no establishment of its kind in the state that gives employment to as many skilled workmen as does the Pennsylvania railway works, known by our people as the Pittsburg shops. This establishment is divided into two branches, one of which is devoted to the building and repairing of locomotives and the other the building and repairing of cars. These works can accommodate from 1,000 to 1,200 employes and of this number perhaps one-half are skilled workmen. That is, men who have passed through an apprenticeship, and are first class machinists, blacksmiths, boilermakers, tinners, carpenters, cabinetmakers, painters, etc. It is not out intention, however, to give a minute description of the Pittsburg shops, but rather to speak of a few of our well known citizens who find employment therein. In the machine room, of which Hugh Hogan is foreman, are a number of men who have worked in that department for over ten years. Following are their names, with the day each one entered the service of the company:

Hugh Hogan, foreman, November, 1869.
William Boag, November, 1865.

WHY NO. 8 WAS LATE.

The following was a conductor's reply to a dispatch from the superintendent asking why he was not making time:

The wind is high and the steam is low,
The train is heavy and hard to tow;
The coal is poor and full of slate.
This causes the detention of No. 8.

PANHANDLE CONDUCTORS.

According to the Pittsburg Post of the 15th inst. thirteen Panhandle conductors on the eastern division of the road have withdrawn from the Order of Railway Conductors. The Post gives the names of the men, and goes on to state that "the withdrawal of conductors is the result of a plan of the Panhandle to have no O. R. C. men in its employ next year when the world's fair opens. The Panhandle is making every arrangement to handle an enormous amount of traffic next year and a strike at that time would be disastrous to the interests of the road, and the plan, the results of which are just being seen, was laid months ago, and its working has been so skillfully conducted that until very recently the officials of the Order of Railway Conductors have been completely in the dark. With the greatest adroitness in the world, the impression was given the conductors that to please the company and get promotion when vacancies occurred, they must withdraw from the order. With few exceptions did any new conductors join the order, and often a young and new man, who was connected with no order, rose above conductors who had been long in the business and had discharged their duties honestly and faithfully. This was an object lesson that few failed to note. Good men who belonged to the order could not obtain better positions, while men younger in years and experience but hampered with no order, rose rapidly."

J. N. DUBARRY DEAD.

J. N. Dubarry, second vice president of the Pennsylvania railroad, died suddenly at his home, No. 2017 Spruce street, Saturday morning. The deceased was a model railway man. He began his railway career from the lowest ranks and worked himself up to a high position. During the years 1858 to 1861 Mr. Dubarry was superintendent of the western division of the Pittsburg, Fort Wayne and Chicago railroad and made this city his headquarters. Many of the older employes of the road remember him and speak of him in the most kindly way. Mr. Polhamus said this morning that the deceased could go into the shops or among the section men and call each individual by name. He mingled with his men a great deal and all liked him very much. The news of the death of Mr. Dubarry was telegraphed along the line yesterday and caused great sorrow where the gentleman was the best known. The vacancy in the vice presidency ranks will open the way for a number of promotions, and if there is any foundation for the report that T. N. Ely is to be promoted, that gentleman may step into Mr. Dubarry's place. In case this change occurs our esteemed fellow citizen, F. D. Casanave, will undoubtedly go up a notch higher.

BRIEF MENTION.

Master Mechanic G. L. Potter went to Pittsburg yesterday.

Tomorrow is pay day at the Fort Wayne Furniture works.

J. Handenschild, of the Pittsburg boiler shop, is sick and off duty.

J. Hartnett this morning took a position in the Pittsburg paint shop.

Fred Fink, of the Pittsburg machine shop, will be married tomorrow. So the gossips say.

Engine 270, which was in the Shreve wreck, is in active service again, having been repaired

Martin Schram and William Kohn, boilermakers, have taken positions in the Bass shops.

The large new punch in the Pittsburg boiler shop has received a coat of paint and is now a thing of beauty as well as utility. It is operated by F. Berghorn.

Machinist W. Marks, of the Pittsburg shops, is on the sick list.

J. C. Hickman, Pittsburg round house employe, has reported for duty after an illness.

The Wabash pay car arrived this morning and paid the employes for the month of November.

C. Schook, a machinist in the Bass shops, has recovered from an illness of several days' duration.

Mrs. Tine Kretsinger, wife of the Pittsburg car employe, has recovered from her recent illness.

G. B. Sinex, of the Pittsburg boiler shops, is looking after some private business in Indianapolis this week.

Julian Zurbrugg has gone to Napolen, Ohio, on private business. He works in the Pittsburg boiler shops.

The family of Blacksmith Frank Opatz left today for Anderson, Ind., where Mr. Opatz will join them Saturday.

A. Rost and Henry Glah, blacksmiths in the Pittsburg shop, had to leave their work this morning on account of sickness.

William Connors, D. Cleary and W. L. Bley are now members of the driving wheel gang in the Pittsburg machine shop.

Adolph Fromuth and Charlie Site, of the Bass works, are preparing to go to Chicago Wednesday to see their best girls.

David Arnold, a carpenter, has resigned his position with Rhinesmith & Simonson and will return to Van Wert, his former home.

Mrs. R. H. Harrison, wife of Captain Harrison, of the Pittsburg car shops, has recovered from a severe attack of muscular rheumatism.

Fireman E. Moriarity, of the Grand Rapids, is sick and off duty. Fireman W. M. Fry, of the same road, has just recovered from a sickness.

John Evans, teamster for Herman Tapp, is a father for the first time and feels as big as anybody. Last Friday a pretty baby girl came to his house.

Engineer F. Hodges and Fireman J. Bennigan went to Grand Rapids this morning to bring down engine No. 218, which has been in the shops for repairs.

George Gecken will report for duty the first of January, if he continues to improve. He has been ill for seven weeks. He is employed in the Pittsburg boiler shop.

Henry Courson, of the Pittsburg car shop, was twenty-one years old yesterday. In the evening a few relatives and friends called upon him and extended congratulations.

August Kronan has taken his old position as janitor in Capt. R. H. Harrison's department of the Pittsburg shops. For a time Mr. Kronan was working in the truck gang.

Capt. Hugh Diehl will leave this week for Pennsylvania to visit the scenes of his boyhood. He will spend a few days each in Philadelphia, Wilkesbarre and Harrisburg.

John Baches, the veteran boilermaker, who has been ill for some time, is worse today. His son, Jacob, is not working on account of the serious condition of the old gentleman's health.

Only six more trucks remain to be built for the 100 furniture cars now under construction in the Pittsburg car shop. The truckmakers will then take up an order for gondola cars.

On account of ill health Fred Wefel was compelled to resign as Wabash car inspector and is now running a meat market at 163 High street. During Mr. Wefel's last year's service as car inspector he spent a great deal of the time in the company's hospital at Peru.

George Kensill, engineer in the Pittsburg car shops, had the flesh stripped off the middle finger of his right hand this morning. He was tightening a bolt on the engine and got his finger between the rod and the engine crank. He was lucky in not losing his whole hand.

THE WAY OUT of woman's troubles is with Doctor Pierce's Favorite Prescription. Safely and certainly, every delicate weakness, derangement, and disease peculiar to the sex is permanently cured.

Out of all the medicines for women, the "Favorite Prescription" is the only one that's *guaranteed* to do what is claimed for it. In all "female complaints" and irregularities, periodical pains, displacements, internal inflammation or ulceration, bearing-down sensations and kindred ailments, if it ever fails to benefit or cure, you have your money back.

So certain to cure *every* case of Catarrh is Dr. Sage's Catarrh Remedy that its proprietors make you this offer: "If you can't be cured, permanently, we'll pay you $500 cash."

The merit of Hood's Sarsaparilla is proven by the many wonderful cures it is accomplishing. It is just the medicine for you.

He was Expelled.

"Mr. Shingiss," said Mrs. Hascroft to her star boarder.

"Well?"

"I hear that you have joined a foot-ball team. Is it true?"

"Yes. I'm getting to be one of the best players in the club, too."

"Then you must seek another boarding house."

"What is that?"

"I am very sorry, but I have resolved to have no kickers in my establishment. You must go."

American Cholera.

From the Daily Reveille, Whatcom, Wash.

"T. C. Burnett, the democratic candidate for sheriff, was taken violently ill at Clearbrook. He had all the symptoms of Asiatic cholera, and for an hour or two it was feared he would die. They finally gave him a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which revived him until a physician arrived." That is precisely what the manufacturers of that medicine recommend for cholera. Send for a physician, but give their medicine until the physician arrives. If cholera becomes prevalent in this country next summer this preparation will be in great demand, because it can always be depended upon. For sale by druggists.

Rheumatism Cured in a Day.

"Mystic Cure" for Rheumatism and Neuralgia radically cures in one to three days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. Seventy-five cents. Sold and guaranteed by C. B. Woodworth & Co., Druggists, Fort Wayne, Indiana. dec2d&w 3 mo

Simple Method of Removing Wrinkles

It is easier to remove wrinkles than to eradicate any other defect of the face and yet we daily see many faces, otherwise beautiful, rendered prematurely old by that shrinkage of the tissue we call wrinkles. A simple, but positive, treatment is Marquard's Rose Cream, which not only disperses wrinkles speedily but also removes pimples, blotches, eruptions and lends an exquisite glow and transparency to the complexion. For sale by Meyer Bros. & Co., 9 West Columbia street.

Mr. and Mrs. Fred Hostman are now occupying pleasant residence quarters at 112 DeWald street, which they have handsomely furnished.

Mrs. B. A. Vogel, of Indianapolis, who secured a divorce from her husband last September, it is reported, will soon wed a prominent Fort Wayne gentleman.

D. C. Fisher has received a telegram from E. E. Cobbage announcing that native silver had been struck in the Indiana Mining company's mine, at Butte, Mont.

Mrs. James Geary is winning considerable praise as an actress. She appears every night on the stage at the World's Museum theater and is graceful and pleasing.

The countenance of A. J. Keller, the popular Broadway druggist, was adorned with more than its usual pleasant smile as he passed the cigars yesterday. All owing to the arrival of a ten-pound boy at his house.

The lovers of amusement will be presented with a fine program at the World's Museum this week. Good attractions will be in the curio hall, and Geary's Dramatic company will play "For Prohibition" during the first three nights, and "Christmas Nights" during the last three.

The following officers were elected Saturday night in Summit City Encampment, No. 16: C. P., F. W. King; S. W., James Richardson; J. W., John Phifer; recording scribe, L. Waxelfelder; financial scribe, Thomas J. Baker; treasurer, Charles Hoag; H. P. G. Crouse; trustees, R. P. Sharp, John Snyder, H. L. Williamson.

While en route to Maine last week Mr. T. E. Ellison met an electrician who is connected with the Thompson-Houston Electric company. In the conversation which followed the gentleman spoke of the late M. M. M. Slattery and his works in the most glowing terms. He said that Mr. Slattery was the peer of Edison and the most advanced electrician of the world.

The Press club held a meeting in the Morton club rooms yesterday afternoon. The attendance was good and everything points to a successful organization of Fort Wayne newspaper men. At yesterday's meeting the constitution was adopted and the initiation fee fixed at $3, and the dues at 50 cents per month. The club is now negotiating with a first class dramatic company to appear in the Temple some time in January.

At a recent meeting of the Benefit association of the employes of the Fort Wayne organ factory, the name of the association was changed to the "Fort Wayne Mutual Benefit association." The following officers of the ensuing year were also elected: President, L. S. Williams; vice president, Adam Imbody; recording secretary, S. C. Kimmel; treasurer, Henry Lehnert; trustees, Ed. French, Fraud Miller and John Zook.

The second annual meeting of the State Chess association closed Saturday at Logansport. The officers elected were: President, Dr. B. C. Stevens, Logansport; vice president, M. M. Hass, Evansville; secretary, Guy Hensley, Logansport; treasurer, J. M. Tomlinson, Alexandria. The time and place of holding the next convention were left to the president and secretary to decide. The world's championship game between Lasker and Showalter will be played early next year either in Chicago, Louisville or Indianapolis.

There are two things at least to make a theatrical venture a success. The first of course is the play itself, secondly, there must be a good company to interpret the play. No matter how good the play may be, if it is not presented by a competent company it cannot be a success, and no matter how good a company there may be, if they have nothing of any merit to appear in, the result is always disappointing. This has been fully exemplified time and again. In the comedy drama of "Friends" shortly to be produced at the Masonic Temple we have not only one of the best mordern plays ever written but a company fully equal to any. The result should be the greatest kind of a success.

W. M. Kaufman and L. P. Sealy, of Pittsburg, are at the Wayne.

Misses Addia Tigus and Louis Hilgeman, of the Foster waist factory, have gone to Decatur to remain over the holidays.

Miss Hannah Wieman, of Ohio, will be the guest during the holidays of her sister, Mrs. C. Wenninghoff, of West Jefferson street.

After twelve hours hard work the experts succeeded in opening August Bruder's big safe. It has been locked since Friday night.

Born, to Mr. and Mrs. Will Martin, of 110 Chicago street, a fine eight pound baby girl. Mr. Martin is one of the popular employes of the electric light works.

Mr. and Mrs. Benjamin J. Miles, the favorites in the Spyder & Fly company, are expected the latter part of the week on a few days' visit to Mr. and Mrs. Frank J. Gruber.

Mr. E. H. Sothern, who plays his new comedy, "Captain Lettarblair," at the Temple tonight, is an earnest, thoughtful, studious type of the nineteenth century young man. He is a close student, and of such regular habits that he may almost be said to be a slave to his profession. He goes immediately to his hotel at the close of the performance, and after the midnight meal, which is as necessary to an actor as the usual supper to any man after his work is done, he retires for the night. In the morning on the few days when he is not busy rehearsing some parts of the performance which have not gone quite to suit him the night before, he takes his walk of an hour or more for exercise, and studies or sketches until three in the afternoon. He is an artist in water colors of considerable merit. After that he indulges in a two hours' nap before his dinner. On matinee days he remains in his dressing room between the performances, eating his dinner there. By this method he finds himself sufficiently rested to give his evening performance with the same life and spirit as that of the afternoon. Probably there is no man more unlike the rollicking, fun-loving "Dundreary" Sothern, than his quiet, methodical son, now playing "Captain Lettarblair."

As soon as we lay ourselves entirely at His feet, we have enough light given us to guide our own steps; as the foot-soldier, who hears nothing of the councils that determine the course of the great battle he is in, hears plainly enough the word of command which he must himself obey.

The Chicago University has to be supplied with a telescope larger than any yet built. It has to have a lens forty-five inches in diameter, which is seven inches larger than that in the Lick telescope, will, it is supposed, bring Mars so near that it will be possible to read the names of the boats which sail along the canals of that far distant world.

Dr. Dabbs, one of the physicians who attended Lord Tennyson, has told the whole world through an English newspaper that "smoking does not injure a man who works and thinks," adding to this a statement of his associate, Sir Andrew Clarke, that it only hurts a lazy man who drinks. This is good news for smokers. The supposed evils of the tobacco habit are not due to tobacco but to laziness. Hereafter there is an answer to every reported case of trouble caused by tobacco. It can be stated that the man was lazy and did not think.

Morning Musicl.

At the Masonic Temple tomorrow night none of the audience will be seated during the performance of the music. At the end of each number the doors will be thrown open and the holders of tickets shown to their seats. It is hoped all will be prompt in coming.

Twelve members of the Sothern company are guests of the Wayne.

A CASE OF MUST!

In our book of business rules,
there is no such word as Keep,
we've no alternative. To sell is the
only course left open to us. To sell
in the season in which we bought, at a
profit if we can,—at a loss if we must—BUT SELL.
Wise men do foolish things sometimes. We
overloaded ourselves this season for the sake
of variety—and now we've more Children's
Suits than we need. We might keep them
along until the last horn had blown—
when you wouldn't need them as you do now
and then cut the prices. But that isn't like us—
we don't "beat about the bush," but cross
the bridge as soon as we come to it.
The burden wouldn't be any easier to bear a
month or six weeks later than it is now,
so away go the value prices. Hundreds of
suits that are $7.50, $7.00, $6.50 ad $6.00 are
all huddled together for you to take your
choice from at $4.80.
They are all styles of Two-piece Short Pants
Suits—with Single or Double Breasted Plain
or Plaited Jackets, Plain and Fancy Cheviots
and cassimere, Black Corkscrews, Blue Tricots,
fancy worsted—made up by the most reliable
makers in the land.
They are in all sizes—
Beginning at 4 years,
running to 15 years.
All short pants suits—don't
overlook that.

HUNDREDS - OF CHILDREN'S Short Pant Suits

STARTLING REDUCTIONS IN CLOAKS.
